

## Note of acknowledgement

I understand the following statements:

1) The MSC is an environmental charity seeking to find a solution to overfishing. The MSC eco-label, pictured, can be applied only to MSC certified fish.

2) Surrey Commercial Services is serving only MSC certified fish fingers commencing from April 2006. Only MSC certified fish fingers can be ordered from Brakes through the ordering system.

3) The MSC eco-label is shown on the take-home school menu next to the fish fingers for the next rotation.

The eco-label can also be put on the weekly notice board whenever MSC certified fish is served by using the laminated eco-label which will be provided in May. This label cannot be applied to non-MSC certified fish.

It is easy to tell whether fish is MSC certified or not.

- a) the packaging will show the MSC eco-label.
- b) the order form will have MSC next to the product.

4) In order to ensure only sustainable fish fingers are used in Surrey schools, Brakes' auditors may carry out a quick check in your kitchen.

Please sign this sheet to show that you understand the statements above. If you have any questions please direct them to your District Manager.
